EDUCATION

Bachelor of Science in Computer Science

Saraswathy College of Arts and Science ,TamilNadu, India

Nov 2020 - Apr 2023

CGPA : 7.9 / 10

SKILLS SUMMARY

- **Frontend** : HTML, CSS, JavaScript, jQuery, React.js
- **Backend**: Java, Java Servlets, JSP,
- **Database**: SQL, MySQL, JDBC
- **Frameworks**: Spring Boot, Hibernate / JPA, Spring MVC , Bootstrap
- **Tools & IDEs**: Eclipse, Visual Studio Code, Git, Maven
- **Server**: Apache Tomcat

WORK EXPERIENCE

JAVA FULL STACK INTERN, INMAKES INFOTECH PVT LTD | [CERTIFICATE](#)

Jan 2025 - Jun 2025

- Developed full-stack web applications that improved data handling efficiency by 30%.
- Created and managed REST APIs and database logic using JPA/Hibernate.
- Executed 50+ SQL queries to support CRUD operations and backend services.
- Contributed to a web-based TICKET BOOKING platform serving 100+ users.
- Implemented secure user login, seat selection, and booking history modules by 20% backend logic optimization.
- Built a real-time COVID-19 tracker for 195+ countries using third-party APIs.
- Visualized live case updates and trends using interactive tables.

PROJECTS

MYPORTFOLIO PROJECT | [LINK](#)

- Created a responsive static website with React.js, incorporating scroll-based animations, smooth transitions, and interactive UI effects.
- Developed a fully responsive website, implementing React Hooks and React Router for dynamic rendering and seamless navigation. Utilized CSS Flexbox, Grid and media queries.

SHOPING CART PROJECT | [LINK](#)

- Implemented feature-rich React Hooks (useState, useEffect, useContext) to efficiently manage component logic and side effects.
- Applied React Router for smooth navigation, and optimized performance by managing context separation to prevent unnecessary re-renders.
- Designed a responsive and user-friendly interface aligned with modern web development standards.

Cultural Festival Management System

- Developed a web-based CRUD application to manage cultural festivals, allowing users to create, read, update, and delete festival records.
- Technologies: Java, Servlets, JDBC, MySQL, HTML/CSS
- Designed and implemented server-side logic using Java Servlets and JDBC for database interaction.

ADDITIONAL INFORMATION

- **Soft Skills** : Problem solving, Time Management, Continuous Learning, Team Collaboration, Adaptability
- **Languages** : Tamil, English
- **Certifications** :
Full Stack Java Developer - [Login 360 Training Institute — Aug 2023 – Mar 2024] | [CERTIFICATE](#)
